NEO LUXE

Fashion says a big hello to the 21st century. The new luxury is here and w-dried, because what you wear begins with your hair.™

The designers, car manufacturers, and world renowned architects are embracing luxury and showing off a bigger-is-better sense of style. From cars to houses to fashions wrapped up in riches, we applaud the models as they walk down the runways, sporting big shoulder pads and knits with real gold thread. They're also sporting big hair, with Texturizer™, Volumizer™ and Shaper™ reaching new heights of popularity in the Collection of fiber, fabric, fashion. This is a new time and it's perfect for showing off sleek, curvy maximums. Blow dryers are hot, rollers are big and we're opening our arms to the new luxury of now. Neo Luxe. Spring 2001. It's big.
